

# GET EXTREME PERFORMANCE WITH EPT MILITARY PRODUCTS

## Military/Government Spec. Fabrics

PVC | EIA/KEE | TPU

**Engineered Polymer Technologies (EPT)** has developed and manufactures an extensive line of Berry Amendment Compliant Military Coated Fabrics that meet or exceed Military Specifications. Applications include Primary & Secondary Containment as well as Personnel & Equipment Protection. Specific end items include: Collapsible Storage Bladders (for Fuel/Hydrocarbons and Potable Water); Berm Liners; Ground Cloths; Spill Containment Booms; and Tarpaulins, Tents and Shelters to shield personnel and various equipment.

These products utilize our custom designed compounds that exploit the latest in polymer and fabric technologies available. Whether you have

- Widths up to 120"
- Berry Amendment Compliant\*
- Buy American Compliant\*
- NAVFAC Approved
- Oil, Fuel & Chemical Resistant

*\*Some of the specifications include but are not limited to: MIL-PRF-20696F, A-A-55308, ATPD 2344, ATPD 2265, ATPD 2262A.*

IR or UV requirements, dead load and/or cold crack standards, our products are engineered for maximum performance in the field.

EPT DOD approved laboratories continue to work directly with fabricators and military facilities to provide products that will meet the new demands and expectations of our military.
